REAL WORLD PROTECTION, FOR YOUR WORLD.

WHEN YOU LOOK DANGER IN THE EYE FOR A LIVING, YOU HAD BETTER HAVE THE RIGHT EYEWEAR. FOR OVER TWO DECADES, WILEY X HAS PROVIDED REVOLUTIONARY, SHATTERPROOF EYE PROTECTION TO MILITARY AND LAW ENFORCEMENT PERSONNEL ACROSS THE GLOBE.

FROM ARMY RANGERS TO LOCAL S.W.A.T. TEAMS, WILEY X KEEPS UNITS SAFE WITH HIGH VELOCITY PROTECTION (HVP™). WILEY X PRODUCTS ARE TOUGH, RUGGED, AND MOST IMPORTANTLY, PROVEN.

PROVEN IN THE MOST DEMANDING PLACES ON EARTH, BY THE MOST DEMANDING FORCES ANYWHERE.

THE WILEY X FACTOR:

SHATTERPROOF LENSES, DURABLE FRAMES, WELL PROTECTED ARMED FORCES.

SHATTERPROOF SELENITE™ POLYCARBONATE LENSES

Each Wiley X lens is made from one of the world's most impact resistant lens materials (trust us, we've scoured the globe for durable lens ideas). They far exceed ANSI Z87.1 safety and ANSI Z80.3 optical standards.

SCRATCH RESISTANT LENS HARDCOAT

Wiley X lenses protect eyes; this resilient coating protects the lenses. Get fewer of those annoying little scratches and nicks.

UNBREAKABLE TR 90 FRAMES

Customers have even reported that frames run over by moving vehicles remain intact. That's the immeasurable advantage of owning a Wiley X.

ULTRA FOAM™ AND FACIAL CAVITY™ SEALS

Select styles totally seal your eyes off from the elements outside with Ultra Foam™ inserts and a technology we like to call Facial Cavity™ design. They're designed to fit and seal comfortably over any eye socket. Made to fit the universal face.

LENS ANATOMY

Fending off the blazing sun, flying shrapnel, wind-driven sand and other air-borne debris is the duty of Wiley X lenses. Our industry leading standards are achieved through precision manufacturing and state-of-the-art quality control. We start with our shatterproof Selenite™ lenses which are formulated and die-cut from the exact center point of each lens blank to eliminate distortion. Result: precise optical clarity. We then add the exact amount of dyes needed to eliminate eye fatigue and strain. All Wiley X lenses block 100% of the sun's harmful UVA and UVB rays (up to 400 nanometers). Because in the end, protecting eyesight is job one.

**Polarized available in select styles. See 8-layers to Clarity section for details on Wiley X Filter 8 Polarized Lenses.*

LA™ LIGHT ADJUSTING GREY LENSES Darken as the brightness of the sun dictates. Darkest on bright days, clear on overcast days. Maximize optical clarity. Shatterproof. See Page 7 for details. Light transmission: 85% to 17% (in sunlight).

SMOKE (GREY) LENSES* Maximum glare reduction. Won't distort colors. Excellent in bright/glare conditions. Light transmission: 20%, 13% Polarized.

CLEAR LENSES Maximum light transmission. See precise color values. Hazy or overcast, dusk/dawn conditions. Light transmission: 89%.

LIGHT RUST LENSES Filters out blue light waves, the chief component of glare and haze. Enhance contrast in medium to low-light conditions. Light transmission: 53%.

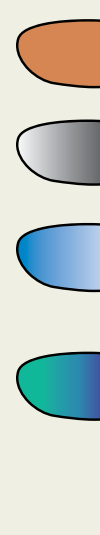

SMOKE GREEN LENSES* Maximum glare reduction without distorting colors. Great for general daytime use. Light transmission: 21%, 19% Polarized.

PALE YELLOW LENSES Best light enhancing lens tint. Filter out blue light waves and the preferred lens on overcast or low light days. Light transmission: 86%.

PALE ROSE LENSES Improve details and enhance depth perception when encountering low or artificial light conditions. Light transmission: 51%.

BRONZE BROWN LENSES* For superior visual definition. Increase contrast, enhance ground level contours in most light conditions. Light transmission: 20%, 19% Bronze Flash, 19% Bronze Brown Flash, 19% Polarized Bronze Brown.

LA™ LIGHT ADJUSTING BRONZE BROWN LENSES Darken as the brightness of the sun dictates. Darkest on bright days, clear on overcast days. Maximize optical clarity. Shatterproof. See Page 7 for details. Light transmission: 82% to 21%.

COPPER LENSES* Great lens to curb glare and enhance contrast of colors found in various global terrains. Light transmission: 18% Polarized.

SILVER FLASH LENSES* Multi-coat, Z-Oxide mirror over smoke lens. Reduces glare. Excellent on bright days. Light transmission: 7%, 10% Polarized.

BLUE MIRROR LENSES* Multi-coat, over smoke lenses. Absorb reflections across mirror surface, diminish glare. Ideal in bright conditions. Light transmission: 19% Polarized.

EMERALD MIRROR/AMBER TINT LENSES* An amber tinted lens under an emerald green multi-coat mirror surface that's specially designed to amplify color contrast and deliver high visual definition. Distinct colors and crisp acuity in all light conditions for superior vision performance. Light transmission: 13% Polarized.

Meets and exceeds ANSI Z87.1-2003 high velocity impact safety and optical standards.

Wiley X ANSI approved frames can be filled with a prescription safety lens that meets most on-the-job safety requirements. Certain restrictions apply—ask your Account Representative for more details.

Meets and exceeds ANSI Z87.1-2003 high velocity impact safety and optical standards.

Our proprietary polarized lens technology adds 99.9% polarization to 100% ultra violet protection for unequaled clarity and contrast.

Our patented removable facial cavity seal blocks out wind, debris and peripheral light.

WILEY X POLARIZED LENS 101:

FILTER 8™ TECHNOLOGY

SLICK™ Clear optical coating is a super hydrophobic mixture that repels water, salt water and ice from the lens. It prevents surface spotting. This advanced coating makes smudges and stains easy to remove with soft micro fiber cloth enclosed with all Wiley X frames.

T-SHELL™ This flexible hard coat adds an extra layer of scratch resistance to each lens for added protection and longer life. Keeps the lens from cracking or crazing to maintain clear vision.

SELENITE™ POLYCARBONATE LENSES
Source of the shatterproof reliability of Wiley X lenses. Each lens is die-cut from a larger lens blank to eliminate distortion and provide optical clarity at all angles. 10x more impact resistant than glass or resin lenses and easily exceeds global impact standards.

FILTER 8™ POLARIZED FILM This proprietary film adds 99.9% polarization to 100% ultra violet protection for unequalled clarity and contrast. In conjunction with our other high tech coatings, allows fantastic amount of light to reach the eyes' pupils. Helps achieve perfect visual acuity.

VIOLET 4™ AR (ANTI-REFLECTIVE) COATING
Adds another optical filter to each lens to eliminate back-lit glare, a major cause of eye fatigue and strain.

TECHNOLOGY BRIEFS

LA™ LENSES LIGHT ADJUSTING

In the face of danger, who has time for lens changing? LA™ Lenses change for you. They literally adjust to the light conditions so you don't have to. In bright conditions, they're dark. As the sky darkens, the lenses lighten. Optical clarity remains perfect no matter what kind of light the day brings. And since Wiley X uses shatterproof polycarbonate, the lenses are far safer than old photochromics (glass that could shatter on impact). All in all, these lenses are state-of-the-visual arts.

TOP DOWN™ VENTILATION SYSTEM

Stay cool in the heat of battle. Wiley X Top Down™ Ventilation helps keep your eyes cool and lenses fog-free. Air vents in the top of the frame direct air flow downward and out through vents in the bottom. In the stifling heat and intensity of a firefight, the last thing you need are foggy lenses.

A CALL FOR AIR SUPPORT SCREAMS OVER THE RADIO.

YOU TAKE OFF AND SLIDE THE CHOPPER DOOR OPEN.

WIND BLASTS AGAINST YOUR FACE.

YOUR BUDDIES ARE ON THE GROUND.

THEIR LIVES DEPEND ON YOUR EYES.

YOU LOCATE THE ENEMY.

YOU ENGAGE.

TERMS AND CONDITIONS

All Wiley X models may be combined when compiling a quantity order. Extreme care is taken when packaging all products we ship. If a discrepancy occurs, a claim should be made immediately.

Standard Terms: NET30 (upon credit approval)

COD Invoices incur minimal shipping and handling fee

Credit Card (Visa, Master Card, Discover, American Express)

LIFETIME WARRANTY

All Wiley X eyewear is warranted to the original purchaser for life against manufacturing defect in materials and workmanship. Upon receiving returned eyewear that Wiley X determines to be defective, we will repair or replace it, at our option. This warranty does not apply to normal wear, including but not limited to scratched lenses, accidental damage, misuse, and other issues determined by Wiley X not to be a manufacturer's defect. Please include a shipping, handling, and processing fee of \$9.00 with any warranty claim.

RETURNS AND EXCHANGES

Returns and exchanges will not be accepted without receiving prior authorization. Returns must be in resalable condition, as determined by Wiley X for product not discontinued longer than six months. All returns must be shipped prepaid from point of origin, unless prior arrangements have been made. No COD returns accepted. New orders resulting from exchanges will be shipped upon receipt of returned merchandise unless other arrangements have been made with Wiley X. Customers are responsible for all shipping charges, both inbound and outbound. Returns should be sent attention: RETURNS DEPARTMENT.

NSN/NATO LIST

PROTECTING THE VISION OF OUR PROTECTORS.

Wiley X products have been range-tested, field-tested and battle-tested by military and law enforcement personnel for nearly two decades. Over that time, your input and functional design ideas have proved invaluable. For this, and for protecting our nation, our freedom and our families, we are eternally grateful.
