Vision loss is one of the top 10 on-the-job injuries, yet safety experts and eye doctors agree 90% of these incidents are preventable. Wiley X occupational safety-rated eyewear is built for anything the workplace throws its way. Wiley X provides total eye protection with Rx ready frames and lenses that exceed ANSI Z87.1 high velocity impact safety and optical standards, and with patented technologies like Facial Cavity™ Seals that block airborne matter. Long-lasting protection in a stylish package workers want to wear—don’t wait for an injury before switching to Wiley X.

Average safety glasses feel uncomfortable and look unattractive, leading to the very common problem of employees not wanting to wear them. Wiley X safety eyewear is not only snug and comfortable, but stylish. Suitable for any activity, on the job or off, they’re the perfect safety glasses employees will actually enjoy wearing.

Wiley X frames can accommodate specially designed prescription lenses. Ask your Account Representative for more details.

Our proprietary Polarized lens technology adds 100% polarization to 100% ultraviolet protection for unequalled clarity and contrast.

Authorized Protective Eyewear List (APEL) Approved.

Universal Prescription Lens Carrier (UPLC)
**RX OPTIONS**

Most all Wiley X frames can be fitted with prescription lenses. The Wiley X Rx program enables simple ordering, expert lens processing and timely delivery of corrective lenses designed especially for our 8-base wrap frames.

**PATENTED FACIAL CAVITY™ SEALS**

Fine dust and debris from any work environment can cause long-term eye damage. Unexpected spraying of dangerous liquids or propellants can seep around ordinary eyewear into eyes. Wiley X patented, soft foam, removable Facial Cavity™ Seals block out dust, debris and other harmful substances.

**ANSI RATED**

Debris flying at high speeds can shatter ordinary safety glass lenses and frames, exposing the eye and face to severe trauma. Wiley X Z87.1 rated lenses and frames will protect eyes from everything the job throws at them. Some even protect U.S. troops in the field from flying shrapnel.

**LA™ LIGHT ADJUSTING LENSES**

The constant shuffling of clear and dark safety glasses for indoors and out is less efficient and often leads to glasses not being worn in hazardous conditions. Wiley X LA™ Light Adjusting lenses automatically change tint based on UV light conditions, improving vision and eliminating the need to frequently change safety eyewear.

**DIGIFORCE™ DIGITAL RX LENSES**

New DIGIFORCE™ digital Rx lenses have been specially designed for Wiley X’s high wrap frames. Point by point digital lens mapping delivers enhanced visual clarity and color contrast. DIGIFORCE™ ensures a wider field of vision and more significant reading zone for high curve frames. This Wiley X design can be optimized or customized to the wearer’s prescription and face form.

**DIGIFORCE™ COMPUTE**

Specialized design for intermediate and near. Formulated for computer and tablet distances. Helps to minimize digital eye strain and the symptoms of Computer Vision Syndrome (CVS).

**EXPANDED RX RIM SYSTEM**

The Wiley X Rx Rim System makes eye protection available for prescriptions up to +5.00 and -7.00. Now more people than ever can experience the ANSI safety rated protection and sleek style of Rx-ready glasses that are equipped for anything at anytime. Available in select Climate Control Series styles.
