

THE BEST PRESCRIPTION FISHING SUNGLASSES FOR BASS ANGLERS

05/08/2022

Anglers know that your eyesight is one of the most vital assets when you're on the water. But finding high performance fishing sunglasses can be more challenging when you wear a prescription.

There's no substitute for precise eyesight, which is why a quality pair of fishing sunglasses is one of the most important parts of your gear. Thankfully, we've done the research for you and created a list of the top five best prescription fishing sunglasses for bass anglers. Hand selected by ABO-certified Sports Opticians, these frames are loaded with high performance features, protection benefits. And best of all — they're all prescription ready.

WX BREACH

Finally, for those anglers with special interests, preferences, and comfort levels, look no further than the Wiley X Breach. This frame will handle anything you want to throw at it — literally. The only frame on our list with an ANSI Z87.1+ rating, the Breach has been rigorously tested for blunt and high velocity impact. This is a perfect frame for the angler who wears multiple hats and needs one pair that can do it all.

The Breach is a full wrap frame that includes a removable foam gasket for the highest wind, weather, and debris protection. Think about how that would benefit your fishing game. The Breach's foam gasket helps alleviate dry eyes and keeps your vision comfortable. Plus, you don't have to worry about fogging lenses, as the built-in ventilation system channels air through vents on each side of the frame.

Wiley X lens technology is among the best on the market. The brand's exclusive CAPTIVATE™ lens tech makes colors vibrant and crystal clear. It is the only lens tech that also meets ANSI and EN.166 safety standards.

If you're looking for a full confidence frame that is built to last and will work with your prescription, the Wiley X Breach is it.

KEY FEATURES

- ANSI Z87.1+ rated to withstand high velocity, high mass impact
- Removable Facial Cavity™ Seal (foam gasket) for the highest peripheral protection
- Triloid™ nylon frame construction is tough and durable
- Ventilation system promotes airflow and prevents fogging
- CAPTIVATE™ lens-enhanced color, contrast, and depth perception
- Lens Color Recommendation: CAPTIVATE™ Bronze Mirror
- SFW: 133 (Men's Medium, Women's Medium to Large)
