

## GEARUP

### PALADIN GLOVES

Finding gloves to keep your mitts warm and dry is easy. Doing this while offering protection from physical damage and maintaining agile dexterity is not. This is where Wiley X comes in with their [Paladin glove](#). Padded knuckles and reinforced goatskin guard your hands against potential impacts, abrasions, and cuts. Lightweight DRIFIRE fleece insulation wicks away moisture and keeps things dry, an important feature when operating in colder weather. Nomex on the back of the hands provides further ventilation and makes the Paladin gloves flame resistant. These gloves strike a Goldilocks balance between warmth and agility, perfect for field work or a cool weather shooter.
