

THERE IS MORE DEMAND FOR WORKPLACE AND SAFETY EYEWEAR IN THE AGE OF COVID

Here's how to sell the latest styles — including Rx wraps — and don't forget the anti-fog!

ACCORDING TO THE National Institute for Occupational Safety and Health, of the 2,000 or so eye injuries that occur daily, about 90 percent could be lessened or prevented with the right eyewear. The Occupational Health and Safety Administration requires that eye protection meet the 2010 ANSI Z87.1 standard. According to Walman Optical, wrap frame orders, especially full seal for protection against airborne pathogens and viruses, have seen a sharp increase of late.

WX BOSS FRAME

WX Boss frame shown here. All eyewear is ANSI Z87.1 rated for safety and clarity.

WX BOSS CLIMATE CONTROL

ANSI Z87.1+ RX READY

While you can't always control your environment or the conditions you work and play in, you can take charge of how you perform in them with the aptly named WX Boss. Bold style meets high-performance features, with sleek but wide temples, a high-wrap frame, and a removable gasket to keep irritants away from your eyes. With a medium to large overall fit, the WX Boss rests comfortably close to your face and comes with a t-docking strap to keep them in place during intense activity. <https://www.wileyx.com/wx-boss>
