

THE BEST SAFETY GLASSES FOR THOSE WHO NEVER SLOW DOWN

Written By Brian Smyth
Published Apr. 8, 2021

When you realize you have a full life to live still, why hold back? Whether you hope to travel around the world in 80 days on the back of your Kawasaki, plan to turn your blacksmithing hobby into a full-time career, or simply make your living by mixing chemicals day in and day out, nothing is more valuable than your eyesight. When sparks start flying and you've got a deadline to meet, the last thing you need on your mind is keeping those sparks out of your face so you can keep your eye on the prize. Whether you work inside or outside, whether you wear prescription lenses or not, proper eye protection is no area for compromise.

Luckily, there are plenty of options out there, perfectly designed for just about any activity you could ever imagine. So, don a pair of safety glasses and show the world who's boss.

WX VALOR

When you need the absolute best safety glasses available, look no farther than the Wiley X Valor. These ballistic-rated wraparound safety glasses can handle just about anything thanks to their shatterproof Selenite polycarbonate lenses. These lenses provide full protection against the full range of UV light, and meet ANSI Z87+ standards, OSHA 1910.133(b)(1)(1) standards, and MIL-PRF-32432 ballistic standards, covering virtually every possible application while keeping visual distortion to a minimum. Available in both matte black and Kryptek® Typhon frames, the Valor offers lenses in gray, polarized smoke, or a three-pack of gray, clear, and rust for maximum versatility. With the interchangeable lens design, you can even pick up a set of replacement lenses should you ever lose, damage, or destroy your original pair(s). Those who love the Valor but have a smaller or narrower face structure should take a close look at the Wiley X Saint instead. While both the Valor and Saint are expensive, they are worth the extra cash. Need prescription lenses? Wiley X has you covered with both the Valor and the Saint.

The Wiley X Valor provides premium eye protection with its impressive combination of interchangeable lenses, excellent protection, and optional polarized and/or prescription lenses.

Pros

- Comfortable
- Provides full protection
- Meets ANSI Z87.1, OSHA 1910.133(b)(1)(1), and MIL-PRF-32432 standards
- Scratch-resistant
