SABER ADVANCED

ANSI Z87.1 BALLISTIC RX INSERT

Ready for action and virtually indestructible, the WX Saber is the model that helped establish Wiley X as a ballistic-eyewear powerhouse. From its aggressive, semi-rimless presentation to adjustable telescoping temple arms, the WX Saber both looks and acts the part of the ultimate protector. Available in one, two, and three-lens kits, the easily changeable lenses let you adjust to varied lighting and conditions, while an adjustable wire-core nose-piece and foam insert assure a customized and slip-free fit in even the most extreme environments.

PT-1

ANSI Z87.1 | BALLISTIC | RX INSERT

The PT-1 features interchangeable, ballistic-rated lens options in a visor-style, 90-degree wrap-back frame that obliterates unwanted peripheral light and tunnel vision. Ready to take action in any light conditions you encounter, no-slip rubber temples and an adjustable, lightweight nose piece accommodate most faces and nose bridges with an unexpected comfort that starkly contrasts its unapologetically bad-ass presence.

The PT-1 is a worthwhile staple in any arsenal of protective gear. <https://www.wileyx.com/PT1>
